

June 30, 2020

For Immediate Release:

A library staff member was potentially exposed to COVID-19. All library branches will cease curbside service and bookdrop access until it is determined that the staff member is not positive for COVID-19. Friday, July 3 is the tentative date for the library staff to return to branch buildings following a negative result.

We will post an announcement when service has resumed. Until then, we will continue to provide virtual programs and digital materials through our website trailslibrary.org. All available holds will remain pending for pickup when we resume curbside service and due dates for items will be extended.

Because our buildings have been fully closed to the public, we do not expect any exposure for non-staff members. We apologize for the inconvenience.
