Missouri businesses have played a critical role in the effort to stop the spread of COVID-19. As local and statewide restrictions were put into place, many employers drastically altered their operations with some closing their doors completely. As the response continues, many employers across the state are working to develop strategies to enable them to reopen when the threat subsides. Based on the best practices, the Missouri Chamber of Commerce and Industry is providing the following guidelines and suggestions to assist businesses in their efforts to create safe workplaces for their employees and customers. COVID-19 TESTING SERVICES

GETTING YOU BACK TO WORK

Drug Free Sport International (DFSI) is the premier provider of drug-use prevention services for athletic organizations, providing anti-doping solutions for the elite amateur and professional sports organizations across the country. With the emergence of the COVID-19 pandemic, DFSI is offering client services related to COVID-19 testing as an essential element in business plans to get employees back to work. DFSI partners with accredited laboratories that provide the latest testing technologies, including dried blood analysis for the three COVID antibodies and saliva testing for the active virus. DFSI also provides testing kits and specializes in coordinating sample collections on site. As an expert in third-party testing administration with a national collection network, DFSI is prepared to meet your COVID-19 testing needs.

TESTING OPTIONS

COVID-19 Antibody Test

A lab-developed dried blood spot (DBS) finger stick test for asymptomatic or symptomatic populations that is administered by DFSI collection personnel or your own staff and shipped to the lab for analysis. The lab analysis can identify all three antibodies (IgA, IgM and IgG). The DBS results will note the presence, or lack of, COVID-19 antibodies in the individual.

COVID-19 Viral Test

Saliva tests for asymptomatic or symptomatic populations that detect three gene transcripts specific to the COVID-19 virus. Presence of the virus is detectable within two days of infection and up to 28 days after infection.

All samples are processed by an accredited laboratory.

FOUR STEPS TO RESULTS

1

DFSI receives client testing details.

**2**

DFSI provides collection kits and performs collection.

**3**

Face Covering Order Amended and Extended

WARRENSBURG, Mo. (July 23, 2020) – To slow the spread of COVID-19, and slow the influx of cases Johnson County is seeing, the Johnson County Community Health Services Board of Trustees has extended the current Face Covering Order through 11:59 a.m. on Friday, Aug. 21, 2020. This order may be rescinded or extended based on the close monitoring of future cases.

In addition, the order has been amended to offer more clarification.

Under this order, everyone age five and older within Johnson County, are required to wear a face covering when in public spaces as is possible. This includes any outdoor activities when social distancing cannot be maintained.

School districts can determine the best alternatives when face coverings are not a viable option. This includes providing social distancing and opportunities for frequent hand washing. Best practice recommendations are that individuals should wear face coverings in public settings when around people outside of their household, especially when social distancing measures are difficult to maintain. Face coverings may help prevent individuals who have COVID-19 from spreading the virus to others, and are most likely to reduce the spread of COVID-19 when they are widely used by individuals in public settings. A face covering should not replace social distancing, but used as an additional layer of protection.

There are some exemptions for people who have a medical condition or disability that prevent them from wearing a mask. Exemptions are also made for anyone who is hearing impaired and when not wearing a face covering is essential to communication.

Additional clarification when masks are not required includes:

- While outdoors when able to maintain a distance of at least 6 feet from others.
- While exercising outdoors or when exercising indoors and able to maintain a 6-foot distance.
- When at home with only members of your household.
- When in your car/vehicle.
- When actively eating or drinking, or while seated and adequately spaced from others at a food establishment.
- When getting a service that requires the temporary removal of a mask, such as during a dental exam, facial, makeup application, etc. ...

Missouri Department of Economic Development announces up to \$30 million in grant funds for small businesses

July 14, 2020
 Jefferson City

The Missouri Department of Economic Development (DED) announced a new Small Business Grant Program that could provide up to \$30 million for Missouri small businesses. It was designed to provide relief to small businesses and family-owned farms for reimbursement of costs of business interruption caused by required closures due to the COVID-19 public health emergency.

"This virus isn't going away, and we have to protect both the lives and the livelihoods of Missouri workers, families and children," Department of Economic Development Director Rob Dixon said. "Thanks to today's action by the Governor we are not only reinvesting in our economy, but building up the success and safety of our state over the long term."

This program also factors in \$7.5 million for family-owned farms and family farm corporations. Those participating in the production of agricultural crops, livestock or livestock products, poultry or poultry products, dairy products, or horticulture products are eligible for this grant.

"We know that every segment of agriculture has felt the tremendous impact of COVID-19 and will for many years," Director of Agriculture Chris Chinn said. "We have continuously worked with Governor Parson and my colleagues across state government -- including DED and the General Assembly -- to provide support for the unmet needs of Missouri's family-owned farms and ranches."

Organizations eligible for this grant employ 50 or fewer employees, including the owner(s). Grant amounts are initially limited to \$50,000, and organizations applying must incur or have incurred costs due to COVID-19 between March 1, 2020 and November 15, 2020. Applications will consider industry, timely use of funds, and availability of funds.

DED will begin accepting applications for this grant on July 15, 2020. The department is focused on assisting the hardest hit industries including retail trade, accommodation, food service, and health care, in addition to family-owned farms. However, this grant is not limited to these industries.

For more information about this program and more, visit showmestrong.mo.gov.

Grant Helps Missouri Safety Center Explore New Measures to Counter Increase in Impaired Drivers

WARRENSBURG, MO (July 21, 2020) – While the number of impaired drivers is escalating, the Missouri Safety Center at the University of Central Missouri has a new opportunity to help address this national and state issue. It is receiving grant funding that paves the way for research into new tools to help keep high-risk drivers from getting behind the wheel. Financial support comes to Missouri Safety Center through the Governors Highway Safety Association (GHSA) and the Foundation for Advancing Alcohol Responsibility (Responsibility.org), which are awarding a total of \$245,000 in grants to seven states to help keep the nation safe from the most impaired drivers. Goals of this initiative include expanding the nearly 2,000 officers trained in drug-impaired driving detection through the first five years of this partnership, and to support enhanced identification and assessment of alcohol and drug-impaired drivers. Of the total amount, at least \$35,000 in grant funds provided by GHSA will be used to educate state highway safety offices and law enforcement agencies throughout the nation about state oral fluid test programs. UCM to Benefit From Largest Gift Commitment in University History

WARRENSBURG, MO (July 23, 2020) — The University of Central Missouri Alumni Foundation is pleased to announce that Frank “Chip” Deel, an alumnus from the graduating class of 1973, has made a sizable trust estate gift currently valued at \$15 million. This gift commitment is the largest on record in the university’s history.

A native of Jefferson City, Deel majored in economics at what was then Central Missouri State University and started his own business, Superior Trailer Sales, 35 years ago. He credits his CMSU professors, in particular World War II Army veteran Joseph Dolecki, for teaching him how to run a successful business. Deel sold the company in spring 2018, about a month before Dolecki, who devoted 28 years to teaching economics at the university, passed away at the age of 100. [READ MORE](#)

There's Strength in Numbers

Say hello to the Chamber Benefit Plan.

A multiple employer welfare arrangement (MEWA) designed for businesses like yours.

When it comes to providing employees with cost-saving health care coverage, small businesses are at a big disadvantage compared to their larger counterparts. Because of their smaller size, their claims risk pool is spread out across a much smaller employee population. That can result in higher, less stable insurance rates — and fewer viable plan choices.

Fortunately, there's a simple and affordable medical plan alternative: *the Chamber Benefit Plan.*

Powered by the Missouri Chamber Federation, administered by The Health Plan (THP) with network access from HealthLink and Freedom Network select, the Chamber Benefit Plan is available to small group employers in Missouri who are members of a qualifying Chamber of Commerce and have 2 to 50 eligible employees.

Advantages that make a real difference:

- › Shared overall claims risk across a large pool
- › Competitive, medically underwritten rates
- › Fixed, predictable monthly payments
- › Choose from a variety of plan designs, including 10 PPO and three HSA options
- › Minimize the impact of ACA mandates while offering coverage to all eligible applicants, regardless of health status
- › Access to HealthLink/Freedom Network Select network
- › Coverage for claims run-out/terminal liability coverage
- › Simple, streamlined administration

Not a chamber member? We'll help you join one today!

Chamber members have access to a full range of high-quality plans and options that can lead to significant savings.

Let's get started. Contact us today to learn more.

6 secrets to getting hired during an economic downturn

Challenging economic circumstances should not dash your hopes to landing a job. Stick to these tips to catch a hirer's eye times during widespread uncertainty.

How to lead a team when the path forward is increasingly unclear

The most successful individuals know when to step back and "ground" themselves before confronting uncertainty.

Design forward solutions for families in lockdown

If you are a parent, you probably thought your kids would go back to school this fall. Now parents need to come up with solutions to get through the next couple of months and we are here to help!

TIP: Four microhabits to avoid work-from-home burnout.

In a McKinsey article "[The toughest leadership test](#)" authors Homayoun Hatami, Pal Erik Sjatil, and Kevin Sneider point out that the "COVID-19 crisis is a once-in-a-century event, and no training or experience in previous downturns has prepared CEOs for it." But it's not just CEOs, the pandemic is also uncharted waters for managers and employees and it can be overwhelming.

The research by McKinsey showed four good microhabits of CEOs to avoid burnout which we can all apply in our work day.

1. "when you'll especially need an energy booster...set up a regular early-afternoon call with someone you like."
2. "If you know you have some stressful calls ahead, take a walk."
3. "To manage their time better, some are capping the length of internal meetings to 20 minutes or 45 minutes rather than an hour."
4. CEOs "are also more inclined to pick up the phone. In the current climate of physical distancing, 'a quick call can be more effective and more human' than email." For business success and personal well-being create your own "set of thoughtful, tested, and far-sighted microhabits" and share with colleagues.

The **Restaurant Guide** contains a list of restaurants, coffee shops, wineries, etc. in Warrensburg, as well as our Chamber members in Knob Noster. Our Chamber members are listed in bold in this publication.

Our **Relocation Information** brochure lists essential businesses and organizations to contact upon arrival to Warrensburg. This brochure only contains our Chamber members' information.

If you know someone who has recently moved to the area, or if you know someone interested in moving to Warrensburg, please refer them to our website at www.warrensburg.org to find these resources!
