### WARRENSBURG FARMERS' MARKET ITS HISTORY, GROWTH, PRODUCTS AND VISION FOR THE FUTURE

From their humble beginnings in 1996 the Warrensburg Farmers' Market has grown from a few producers to over 40 vendors. During the May to September season the market offers a wide variety locally grown seasonal vegetables, fruit, flowers and plants along with pasture raised meats, eggs, mushrooms, baked goods and honey. The market has several options for food and beverage and features artisans offering handmade products such as soap, pottery, knives, cutting boards, stitch work, jewelry and more. Local performers are often part of the Saturday morning experience in downtown Warrensburg. Join us to learn more about the Market's history, products, growth and goals from Market manager Monica Mitcheltree, Brittany Malvitz (Malvitz Family Farms) and Heather Counts (Buckeye Acres Produce).

This presentation is sponsored by Lifelong Learning at UCM. It is free and open to the public.

### FIBER FACTS

- What is optic fiber?**  
A strand of optic fiber is a long, cylindrical, glass tube thinner than human hair.
- How does it work?**  
Beams of light reflect off the glass from one end to the other, transmitting binary code.
- How fast is it?**  
Data transmission occurs nearly as fast as the speed of light. Due to a high data-carrying capacity and low transmission loss, fiber-based internet is 10-20 times faster than cable service.
- Who can get fiber?**  
Only 43% of U.S. households have access to fiber (source: Fiber Broadband Assn.) Fastwyre is committed to bringing fiber to Warrensburg, MO.
